Rita Molinaro

Our mission

Clinical Tattooing System

We produce training services, pigments, and tattoo devices in the field of **aesthetic and medical dermopigmentation**, offering a working model that helps professionals provide or restore smiles and well-being to their clients in complete safety. Our promise is to provide all the solutions to ensure the best and absolute performance of permanent makeup.”

*“Each person is unique.
We are not here to give emphasis or make corrections, instead
we need to look for the uniqueness in people and enhance them,,*

Dermographs and consoles

SMART

The easy console

Smart

Compact and intelligent, SMART is a small console with an electronic heart. The electronic processor offers four suggested work programs and within them the ability to manage the stroke speed. Smart is made of touch-screen glass, set in a single block of satin-finished aeronautical aluminum alloy, light, easy to clean and free from corrosion and oxidation.

Control panel Smart | €260,00

Extend your style

Pulse

Pulse is the console designed for the most demanding permanent makeup, paramedical dermopigmentation, trichological micropigmentation, derma needling and artistic tattoo professionals.

The most distinguished experts in the industry have tested and contributed to the development of Pulse, a system designed to ensure full control of the dermopigmentation process and the utmost safety for both the client and professional.

Control panel Pulse | €990,00

PULSE

Limitless control

Support for the second handpiece

Clinita Pulse has two power ports to enable the configuration of two different handpieces separately so as to reduce considerably preparation times during treatment or in case of combined techniques.

The support is made of aeronautical grade aluminum, the ideal handpiece for left-handed grip.

Support for the second handpiece | €190,00

Revolutionary

I-Run

I-Run is the brand new Clinita handpiece designed to revolutionize definitely the working method. Even more defined hair, shades and wow effect pixels, infinite power even at the lowest speeds, work already clear in the first pass with less stress for the skin and a total color retention.

I-Run is the ideal tool for permanent makeup, microneedling and trichological micropigmentation, thanks to the wide range of Glove needles (17 sizes). Equipped with a special membrane at the transmission shaft entrance that completely isolates the pen from any possible contamination that may come from the needle or cartridge.

I-Run dermograph / €890,00

Light

The best compromise between power and comfort, weighing less than 45g it is perfect for long tattoo sessions.

Powerful

The Maxon DCX12 engine, designed exclusively for Clinita and the PMU, makes I-run the most powerful Pmu handpiece on the market. Efficient performance is guaranteed also at lowest revs.

Total insulation

The special membrane at the entrance of the transmission shaft totally isolates the dermograph from any possible contamination coming from the needle or cartridge.

Versatile

3.0mm cam excursion, ideal for perfect hairs and shades. A single handpiece for medical tattoo and corrections, on the most difficult skins too. It also supports a full range of MICRONEEDLING needles.

Torque

Components made of precious metals, high efficiency of the electrical parts, allow I-Run matchless performance even at very low speeds, reducing injuries and inflammation to the skin, allowing greater release and color retention.

POD

Practical

Special mechanism for high-precision needle output settings. Quick “plug-in” system for Clinita needle cartridges.

Safe

Pod is a dermograph equipped with a special membrane on the transmission shaft which completely insulates the pen and prevents contamination with the needle or cartridge.

Trichological Micro pigmentation

Specific program developed for Trichological Pigmentation.

Dermaneedling

The machine software has special calibration settings enabling MICRO NEEDLING execution with the utmost precision and highest performance. This Dermograph requires two needles specifically conceived for micro needling, one with “nano” technology.

Comfortable

The handle is comfortable, ergonomic and designed for the ideal grip, but thick enough to avoid occupational diseases. The perfect balance prevents hand fatigue even after multiple hours of work.

Powerful Heart

Pod

Handpiece for PMU, tricopigmentation and Microneedling working with cartridge needles. Maxon 5W micro engine. No vibration, lowest noise level. The smallest and lightest hand piece. Equipped with a special membrane at the opening of the transmission shaft, it completely isolates the pen from any possible contamination from the needle or cartridge. For this Dermograph there are three specific needles for Microneedling, including one with nanotechnology. Fast “plug-in” system for HP needles.

Pod dermograph | €560,00

Let your hand fly

I-Fly

I-Fly is the first wireless Clinita dermograph for permanent makeup, tricopigmentation, collagen bioinduction and microart tattooing. With a series of features designed to maximize comfort and precision, this device stands out for its versatility and reliability. Equipped with dual batteries, it allows you to work for a long time with great freedom of movement. Suitable for both right-handed and left-handed individuals thanks to the absence of wired power supply.

I-Fly dermograph | €690,00

I-FLY

Technological

OLED display with
battery indicator and
adjustable voltage from
4 to 10 volts

Tireless

Six hours of work with
less than two hours of
charging and spare
battery included

Balanced to Heart

Optimal stability during
use, also ideal for shaded
techniques

Light

Realized with
aeronautical aluminum

Safe

Free from oxidation,
easy to clean and
autoclavable

Accurate

Infinitesimal adjustment
of the needle output.
Eccentric camshaft and
excursion 3.0mm

Fly | Glove

Needles

Fly

Disposable sterile surgical steel needles. Extra-long tips allow for clear visibility and controlled color release. Maximum stability and precision are ensured by custom-made tips, which eliminate vibrations and allow for flawless application. The finger grip handle prevents hand fatigue, enabling extended working sessions without sacrificing comfort.

Equipped with a safety membrane that prevents backflow of colour, they are CE certified and labeled according to regulations governing tattoo needles.

FOR I-FLY DERMOGRAPH

Glove

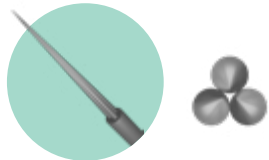

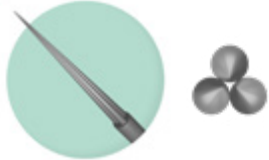

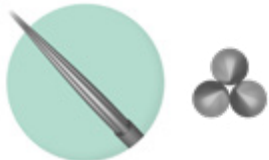

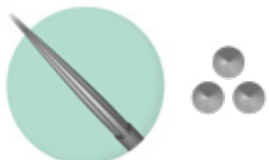

Disposable sterile needles made with a special alloy of surgical steel which increases safety against nickel release reactions. Glove's special silicone sheath completely isolates the dermograph from reflux and cross-contamination, as well as minimizing vibrations, for greater precision. Incredible shades: more color deposit with fewer passes. Fine and defined hair, a hyper-realistic effect never achieved. Long tapers and diameters from 0.20 to 0.40.

They are CE certificated ed labeled according to tattoo needles regulations.

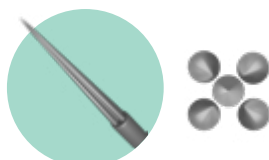

FOR I-RUN / POD DERMGRAPHS

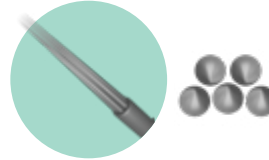

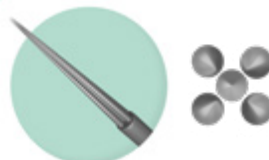

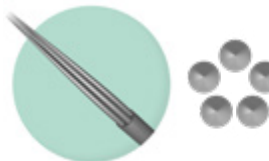

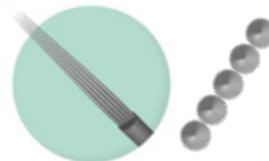

TIP		DESCRIPTION	FLY	GLOVE	
		1 TIP 0,25mm	The notable tapering lends smoothness and precision to this needle. Remarkable HD effect for the new techniques of shaded hair. Ideal for shading also near the most sensitive eyes area.	Liner €26,00 	Slim Liner €65,00 
		1 TIP 0,30mm	Versatile and high-performance needle for advanced techniques. Extreme precision works. A needle that will give you great satisfaction even on the most difficult of skins. Ideal for all the most advanced and cool techniques.	Liner €26,00 	Elegant Liner €65,00 
		1 TIP 0,40mm	The high thickness of the shaft lends stability and firmness to achieve a neat stroke or special effects. The tip structure is specially designed to release colour accurately and clearly.		Evidence Liner €65,00 
		1 TIP Pure 0,20mm STAINLESS STEEL TIP	Needle 0.20: nanotechnology, very thin and elastic. Stability and precision for unimaginable definition. The stainless steel guide helps the needle to move smoothly. The needle guide helps it to become a highprecision instrument for the operator. Needles for demanding professionals combined with the power of the motor for fast and satisfactory performance		Steel Nano Liner €85,00 
		1 TIP PURE 0,25mm STAINLESS STEEL TIP	Needle 0.25: nanotechnology, very thin and elastic. Stability and precision for unimaginable definition. The stainless steel needle guide helps the needle to move smoothly. The needle guide helps it to become a high-precision instrument for the operator. Needles for demanding professionals combined with the power of the motor for fast and unmatched performance.		Steel Pro Liner €85,00 
		1 TIP PURE 0,30mm STAINLESS STEEL TIP	Needle 0.30: nano technology, very thin and elastic. Stability and precision for unimaginable definition. The stainless steel needle tube guides the needle smoothly. The new visible needle tube becomes an absolute precision instrument for the operator. Needles for demanding professionals combined with the power of the engine for fast and unmatched performance.		Steel Elite Liner €85,00 

3 tips needles
Box 10 PCS

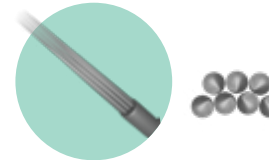

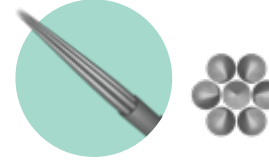

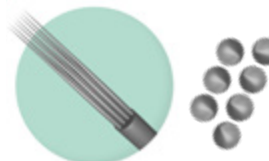

TIP	DESCRIPTION	FLY	GLOVE
	3 TIPS Micro 0,18mm Ultra-thin and high-performing. For the most demanding professionals and the latest hair shaded techniques. Exceptional for certain tricopigmentation techniques. Impeccable shading even on difficult skin.	Micro €26,00 	
	3 TIPS Liner 0,25mm Precise and defined lines, intense effects and deep shades. Corrections, camouflage and restorative tattooing. The tapering and closing of the tips allow for precise colour application already with the first stroke.	Liner €26,00 	
	3 TIPS Liner 0,30mm Suitable for precise and defined lines, for intense effects and deep shades. Corrections, camouflage and restorative tattooing. Used with light pigments to achieve sophisticated light-dark effects. The tapering and closing of the tips allow for a clear colour application already in the first pass, reducing working times.		Round Liner €65,00 
	3 TIPS Shader 0,30mm Soft 'gloss' effects for velvety lips. Shades, filling and color saturation. An indispensable needle for the most advanced techniques.	Shader €65,00 	
	3 TIPS Slope Perfect for three-dimensional effects on hyper-realistic eyebrows, plays of color and values, camouflage, delicate and precise shades. Designed for surprising optical effects and the brand new "Swish" technique. It allows a sharp and precise stroke or very delicate "Powder" effects. It recreates the "Microblading" effect.	Slope €65,00 	

5 tips needles
Box 10 PCS

TIP	DESCRIPTION	FLY	GLOVE
	5 TIPS Round Liner 0,18mm 5 nano tips for intense shading and impeccable lines. A needle to be discovered for its exceptional performance. Also ideal for small tattoos.	Round Liner €28,00 	

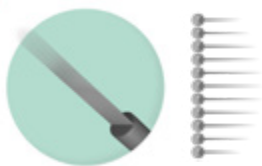

TIP	DESCRIPTION	FLY	GLOVE
	5 TIPS CM 0,25mm Intense shading, colour saturation. A soft and rounded design like a cat's tongue brush. For medical and artistic tattoos, gentle on the skin, exceptional results from the first pass.	Curved Magnum €28,00 	
	5 TIPS Liner 0,30mm Defined lines in just one stroke. Perfect eye-liners in reduced working time.		Liner €65,00 
	5 TIPS Shader 0,30mm Precise and accurate shades and fillings. To intensify colour, shade, create particular effects with a needle with high performance.		Shader €65,00 
	5 TIPS Slope Designed to allow ergonomic grip and create sophisticated shades or fillings. Ideal for full-lips and medical treatments. It can be used for natural effects, similar to the microblading ones but with the ease of the dermograph.		Slope €65,00 

7 tips needles
Box 10 PCS

TIP	DESCRIPTION	FLY	GLOVE
	7 TIPS CM 0,25mm Intense shades, colour saturation. A soft and rounded design like a cat's tongue brush. For medical and artistic tattoos, gentle on the skin, exceptional results from the first pass.	Curved Magnum €29,00 	
	7 TIPS Round Liner 0,25mm Needle recommended for an intense release of colour. For precise lines and artistic tattoos. The special structure of the needle allows precise results with just a few passes by reducing the working time.	Round Liner €29,00 	
	7 TIPS Magnum A magnum needle to fill, saturate with colour and create nuances. The softness of the structure makes it delicate on the skin and the special tapered shape reduces the risk of trauma. Also for artistic and medical tattoos.		Magnum €65,00 

11 tips needles

Box 10 PCS

Collagen bionduction

Discover the effectiveness of the Clinita protocol for collagen bioinduction at our Academies. Our dermographers mount needles specially designed for this treatment. Combine the procedures performed in the center with the effectiveness of Clinita Care cosmeceuticals at home and in the studio.

What can be treated?
Scars, acne scars, wrinkles, stretch marks, pre-treatment for dermopigmentation, thickened or asphyxiated skin, combination or oily skin, enlarged pores, dull complexion.

Clinita Pigments

Stable, certified and safe pigments

The Clinita range boasts over **60 pigments**, all of which are mixable as they have the same light resistance and formulation base. In addition to the most classic colors for eyebrows, eyes and lips, Clinita has developed specially pre-neutralized colours for tricopigmentation, as well as colours for medical tattooing, both for areola nipple complex and various shades for corrections and camouflage.

The **extremely high concentration of cosmetic pigment**, their production in a sterile environment, the special micronization technique of the pigment, certification, and registration in European cosmetic registries make Clinita colours the most innovative, safe, and high-performing product on the market.

- **Reach compliant** certified by accredited European laboratory
- Registered in the **European Cosmetic Products Notification Portal (CPNP)**
- **Produced in a sterile environment** with pure and medical-grade raw materials
- Clinita is the only company to conduct **stability tests on colours** and certifies their resistance to body fluids ("bleed fastness") and aging under light ("light fastness")
- **10-year expiration**
- **Easy insertion:** visible hairs and shading from the first pass
- **Hybrid formulation** easy to remove
- **High stability and longevity** over time thanks to the extremely high pigment concentration, sophisticated processing and quality of components
- **Low molecular weight**, so the color is not detected by diagnostic tools
- Ideal for both **dermograph** techniques and **microblading**.

Clinita provides free access to both the CIC, Colour Identification Chart, with written explanations for each color, and video tutorials explaining our entire colour chart on its website.

- PACK 5 VITILIGO
- PACK 6 KIT FLOWER

Eyebrow Kit

1 bottle per colour* | €100,00

1 Stromboli

A dark, deep and Mediterranean brown. Suitable for skins with golden undertones. It is suggested to add a warmer tone on skins with Fitzpatrick V and VI.

2216 Cacao PRO

Dark chocolate colour for all eyebrow techniques. It can be used with any color to darken and intensify it.

2425 Truffle PRO

Soft brown for natural effects. An elegant shade that works with all techniques, from the most delicate shading to hyper-realistic hair strokes.

2202 Chocolate PRO

A warm dark brown excellent for use on eyebrows but also on areolas. Ideal for skin tones ranging from Fitzpatrick scale V to IV.

2400 Bran PRO

A fine, medium-blond for eyebrows. It can be mixed with Summer Truffle to raise the value keeping it cold or Chocolate PRO 2202 to raise the value in a velvety warm shade.

2207 Shitake PRO

A balanced and versatile brown for the different needs of the professional. A must-have suitable for many techniques.

Lips Kit

1 bottle per colour* | €130,00

2700 Grenade PRO

A garnet red ideal to increase the value of any lips colour. Suitable for shading and volumes on nipples.

2502 Pink Nude

A lively and fresh nude with a pink effect for customers who want natural lips. It can be used to add bright and floral reflections to the nude colours and to illuminate cold undertone lips.

2505 Nude Lip PRO

The nude par excellence for a really super natural effect. It can be used as a base to create infinite shades or alone for an effect of invisible corrections.

262 Hot Chili PRO

An orange red, vibrant and fresh, ideal for lips with cold mucous membranes or to warm the chosen colour.

271 Watermelon PRO

A warm coral colour suitable for brightening cool-toned lips. Can be used to warm up or soften grayish tones.

FL25 Azalia PRO

Velvet and purple, slightly cold but ideal for shadow and volumes games, to contrast and balance vibrant and bright colors.

Guided choice

CIC: Colour Chart, the innovative guide to help you to choose our colours. A convenient and intuitive system based on decades of experience with Clinita techniques. It matches the customer's phototype with values, temperatures and colour compositions enabling better and safer choices, thus avoiding mistakes in the choice of colours and colour alterations.

Download the CIC on our website www.clinita.it or keep it always at your fingertips with Clinita app: download it on your mobile phone!

*In case of stock outages, the missing colour will be replaced with another colour

Ever Brow Kit

1 bottle per colour* | €130,00

01 Stromboli

A dark, deep and Mediterranean brown. Suitable for skins with golden undertones. It is suggested to add a warmer tone on skins with Fitzpatrick V and VI.

04 Marzamemi

Strong but soft brown, adaptable for different types. It can be made more intense with Bollullo and Stromboli. Usable with different techniques.

07 Big Sur

Performing brown adapting to multiple needs. Intense and balanced.

02 Maui Beach

Elegant and velvety hue of brown. It suits many undertones due to its neutrality. Natural shades even on lighter skin.

05 Galapagos

A refined and flexible taupe for mature people with grizzled hair and for natural blondes. It can be used with almost all Ever Brow pigments.

08 Kalahari

Spicy coppery with reflections of antique gold. It can be mixed to warm other shades tending to cold. Perfect for red hair.

03 Bollullo

Balanced brown with an enchanting shade.

06 Papakolea

A soft dark blonde with balanced cold shades. Interesting 3D effects can be obtained by combining Papakolea with Marzamemi, Bollullo or Big Sur.

Indispensable Kit

1 bottle per colour* | €220,00

2101 Black Pearl PRO

Very intense black, for eyeliner or eyelash thickening, for a deep gaze. Ideal for shades. Ideal mix with: Cacao PRO 2216 or Chocolate PRO 2202.

2425 Truffle PRO

Soft brown for natural effects. An elegant shade that works with all techniques, from the most delicate shading to hyper-realistic hair strokes.

2700 Grenade PRO

A garnet red ideal to increase the value of any lips colour. Suitable for shading and volumes on nipples.

262 Hot Chili PRO

An orange red, vibrant and fresh, ideal for lips with cold mucous membranes or to warm the chosen colour.

1 Stromboli

A dark, deep and Mediterranean brown. Suitable for skins with golden undertones. Cool-toned color. It is suggested to add a warmer tone to make it more harmonious on skins with Fitzpatrick V and VI.

2202 Chocolate PRO

A warm dark brown excellent for use on eyebrows but also on areolas. Ideal for skin tones ranging from Fitzpatrick scale V to IV.

2502 Pink Nude PRO

A lively and fresh nude with a pink effect for customers who want natural lips. It can be used to add bright and floral reflections to the nude colours and to illuminate cold undertone lips.

271 Watermelon PRO

A warm coral colour suitable for brightening cool-toned lips. Can be used to warm up or soften grayish tones.

2216 Cacao PRO

Dark chocolate colour for all eyebrow techniques. It can be used with any colour to darken and intensify it.

2400 Bran PRO

A fine, medium-blond for eyebrows. It can be mixed with Summer Truffle to raise the value keeping it cold or Chocolate PRO 2202 to raise the value in a velvety warm shade.

2505 Nude Lip PRO

The nude par excellence for a really super natural effect. It can be used as a base to create infinite shades or alone for an effect of invisible corrections.

FL25 Azalia PRO

Velvet and purple, slightly cold but ideal for shadow and volumes games, to contrast and balance vibrant and bright colors.

*In case of stock outages, the missing colour will be replaced with another colour

*In case of stock outages, the missing colour will be replaced with another colour

Vitiligo Kit

1 bottle per colour* | €125,00

2416 Honey PRO

A honey colour for dark blond eye-brows. Useful to obtain amber tones, to correct tones tending to eggplant colour and to create particular shades of areola on Fitzpatrick 2 and 3.

2417 Cumin PRO

Technical colour for correction to neutralize purplish red. It can be used alone or mixed with the chosen colour for direct correction in a single session.

2406 Almond PRO

An extremely flexible neutral beige. It can be used as a base in the reconstructive dermopigmentation of the nipple areola complex or to slightly lighten some colours.

2306 Jicama PRO

Recommended for camouflage, nipple and areola procedures and as a mix to illuminate or lighten skin shades. Yellow base that doesn't fade in orange tones.

2407 Mustard PRO

A dark yellow mustard to neutralize purple/violet brows. Add to brow colors as needed in case of retouch on previous tattoos, faded into purple, in order to obtain a natural correction.

2508 Curcuma PRO

A warm pumpkin colour, recommended as an additive for blonde or warm auburn eyebrows. Recommended for neutralizing cool grays and colours that are too dark and tend towards bluish tones.

Areola Kit

1 bottle per colour* | €235,00

2202 Chocolate PRO

A warm dark brown excellent for use on eyebrows but also on areolas. Ideal for skin tones ranging from Fitzpatrick scale V to IV.

2700 Grenade PRO

A garnet red ideal to increase the value of any lips colour. Suitable for shading and volumes on nipples.

2405 Alabaster PRO

Chromatic neutral with a green undertone. Recommended for use to correct reddish discolorations and cool down tones that are too warm. For camouflage, corrections and reconstructions.

272 Sweet Cherry PRO

Reinforces the natural colour of the lips by intensifying the turgidity of the mucous membranes. To be used pure for intense but beautifully veiled shades.

2416 Honey PRO

A honey colour for dark blond eye-brows. Useful to obtain amber tones, to correct tones tending to eggplant colour and to create particular shades of areola on Fitzpatrick 2 and 3.

2706 Velvet Nude PRO

"Must have" for areolas. It can be used to create small shadings on areolas with Fitzpatrick 1 and 2 and as a base to create Fitzpatrick 3 and 4 areola colours.

2406 Almond PRO

An extremely flexible neutral beige. It can be used as a base in the reconstructive dermopigmentation of the nipple areola complex.

231 Pink Powder PRO

Powdery shade, suitable for reconstructive dermopigmentation as a base for Fitzpatrick areola 1/2. Mix with Alabaster PRO and Honey PRO.

253 Mango Chutney PRO

Cinnamon colour, ideal for natural effects or to create sophisticated and countless shades of colours.

2206 Caramello PRO

Medium golden brown. It can be used as a mix to create colours for areola. Mixing with other colours in the range to move the value without cooling.

2306 Jicama PRO

Recommended for camouflage, nipple and areola procedures and as a mix to illuminate or lighten skin shades. Yellow base that doesn't fade in orange tones.

2508 Curcuma PRO

A warm pumpkin colour, recommended as an additive for blonde or warm auburn eyebrows. Recommended for neutralizing cool grays and colours that are too dark and tend towards bluish tones.

*In case of stock outages, the missing colour will be replaced with another colour

*In case of stock outages, the missing colour will be replaced with another colour

Freckles Kit

1 bottle per colour* / €120,00

2204 Gianduja PRO

Sophisticated balanced brown. An answer for many needs. Embracing and not cold. Also ideal as a mix for hazel or brown areolas.

2417 Cumin PRO

Technical colour for correction to neutralize purplish red. It can be used alone or mixed with the chosen colour for direct correction in a single session.

2206 Caramello PRO

Medium golden brown. It can be used as a mix to create colours for areola. Mixing with other colours in the range to move the value without cooling.

2500 Copper PRO

A copper colour that allows to warm up and counteract grayish/bluish and greenish tones.

2416 Honey PRO

A honey colour for dark blond eye-brows. Useful to obtain amber tones, to correct tones tending to eggplant colour and to create particular shades of areola on Fitzpatrick 2 and 3.

2407 Mustard PRO

A dark yellow mustard to neutralize purple/violet brows. Add to brow colors as needed in case of retouch on previous tattoos, faded into purple, in order to obtain a natural correction.

08 Kalahari

Spicy coppery with reflections of antique gold. It can be mixed to warm other shades tending to cold. Perfect for red hair.

Clinita Care

Cosmeceutical products

All Clinita Care products are dermatologically tested, non-comedogenic, free from parabens and petroleum derivatives. The airless packaging ensures product integrity from the first to the last use, excluding contaminations and reducing the need for preservatives. Even the most demanding professionals can rely on safe and tested formulations, capable of maximizing their professionalism and ensuring the utmost satisfaction of the treated person.

High-quality cosmeceutical products

The cosmeceutical products that make up the Clinita Care line are all of high quality and result of the constant and in-depth research of the Clinita staff to offer the best to your skin. The concentration of active ingredients present makes Clinita Care products ideal for the professional treatment of collagen bioinduction.

Research and Innovation

The innovative formulation of Clinita Care products, with modulated time-release active principles, offers wellbeing throughout the day every day. All Clinita Care products are loved also by men, as they have a super rich, soft, and fast-absorption texture and do not contain synthetic fragrances.

Wake Up

NIGHT AND DAY CLEANSER

Cleansing mousse, effective but delicate on the face, deeply cleans without damaging the hydrolipidic film of the skin.

► Dermatologically tested

The texture is reminiscent of a delicious sorbet that turns into an enveloping cream rich in precious substances such as shea butter and sweet almond oil present in a high percentage. Lemon balm essential oil gives a delicate and fresh scent making this cleanser particularly suitable for impure, dull and mature skins. Its rebalancing and purifying activity gives a wonderful feeling of well-being. Effectively removes all makeup residues.

BOX 1 PCS | 200ml
€38,00

Hydra Ozon Cleanser

An oily cleanser for red and delicate skin. Restorative and dermoprotective at Physiological pH with Stabilized Ozone in Olive Oil, Melaleuca, and Vitamin E.

► Dermatologically tested

Enriched with substances with specific antimicrobial activity, it is also suitable for highly tolerable sensitized skin. Prevents skin dryness and redness.

NEW FORMULA

BOX 1 PCS | 200ml
€24,00

C-Clare Mask

Exfoliating mask studied for 4 different application, to be applied once a week. The mask guarantees a complete exfoliating and renovating action thanks to the organic acid complex extracted from fine Sicilian white grapes.

► Dermatologically tested

White grape extract allows cell turnover, making it the best ally to reduce the signs of aging, skin thickening, acne marks and reduce skin spots. attenuare le macchie cutanee.

BOX 4 PCS | 4x10ml
€90,00

3D Essence

An essence with a high anti-aging power thanks to the presence of hyaluronic acid, in three different molecular weights, to hydrate even the deeper layers of the skin; Free from silicones.

► Dermatologically tested

Vitamin PP which acts on the synthesis of collagen and has a powerful antioxidant and anti-radical activity; tripeptide-1 conveyed in dextran, a biomimetic peptide which, thanks to its stimulating and regenerating action on skin proteins, increases firmness and stimulates tissue renewal.

BOX 1 PCS | 100ml
€50,00

Advanced Elite Serum

A highly concentrated serum with long-lasting restorative and dermo-filling action. It contains restructuring agents with lifting effect and dynamic filler action. This immediate yet long-lasting treatment owes its efficacy to the natural release of intensely nourishing and dermo-compatible actives, which restore and maintain perfect balance throughout the day. Integrating seamlessly with the skin, it imparts a radiant and healthy appearance.

► Dermatologically tested

Formulated with Hyaluronic Acid, Peptides, hydrolyzed collagen, and plant stem cells. Lift effect, facial filler, and eye contour.

NEW FORMULA

BOX 1 PCS | 30ml
€32,00

E-Booster

Anti-aging booster with tripeptide-1 conveyed in dextran and hyaluronic acid in three different molecular weights, active that guarantee the reduction of expression micro-wrinkles.

► Dermatologically tested

Vitamin E in its active form improves skin elasticity. The microparticles soft focus opacifiers, with an optical filling effect, give the formulation a velvety touch. Perfect product as a make-up primer on mature skin.

BOX 1 PCS | 30ml
€60,00

Extreme Mask

Mask for sensitive and tired skin. Thanks to its moisturizing, antiage and restorative action it is designed to treat cracked, dehydrated skin. Due to its extraordinary soothing effect, it is recommended for use after sun exposure; laser, infrared or needling treatments; or whenever skin is suffering from stress and fatigue.

► Dermatologically tested

Soft, rich and velvety texture. Long-term lifting, repairing and moisturizing mask that improves the skin barrier. Antioxidant, sebum-like formulation with a revitalizing, soothing and supple effect. Rosemary essential oil has an antiseptic, antioxidant and skin toning effect.

BOX 1 PCS | 75ml
€42,00

Diva

Disposable mask in bio cellulose with triple moisturizing, soothing and regenerating properties which makes it also ideal for postfacial treatments too.

► Dermatologically tested

Thanks to the high concentration of organic Aloe Vera juice and Hyaluronic Acid, the skin will appear nourished and hydrated. Licorice extract and Bisabolol in synergy helps to soften delicate skin. Furthermore the innovative Tetrapeptide 15, specifically studied to carry out its soothing action, helps to have healthy-looking, plumped and rejuvenated skin with an incredible feeling of well-being from the first application.

BOX 12 PCS
€95,00

E.Y.E.S.

Rich and nourishing eye contour, with a triple function of contrasting the signs of aging and bags and dark circles, thanks to the innovative action of a complex of baobab oil, with antioxidant activity, helichrysum extract, with anti-edema function, and rich broccoli extract of vitamin K, which maintains the correct oxidative balance of iron ions.

► Dermatologically tested

The tripeptide-1 conveyed in dextran and hyaluronic acid in three different molecular weights guarantees the reduction of expression micro-wrinkles and improves the brightness of the eye area.

BOX 1 PCS | 15ml
€60,00

Absolute Care

An anti-aging cream with deep restructuring, moisturizing, repairing and lifting effect. Formulated with Hyaluronic Acid, Peptides, Hydrolyzed Collagen, Plant Stem Cells, Growth Factor, Reconstituted NMF, Vitamin E, Ozonized Olive Oil, Aloe, and a multivitamin complex.

► Dermatologically tested

Its dynamic action, thanks to the natural release of nourishing actives, restores perfect balance throughout the day; the immediate comfort and the pulp effect merge on the skin, providing a radiant and healthy look.

BOX 1 PCS | 50ml
€48,00

Staminal Plus

It acts deeply on turgor and elasticity of skin, consolidating its structure. It compensates for the shortage of calcium and vitamins, fighting the sagging of the skin tissues. Formulated for balancing the dryness of the mature and/or skin stressed by dermatological and aesthetic treatments, it prevents deficits and premature ageing reducing the harmful action of free radicals.

► Dermatologically tested

The formulation associates innovative active principles ingredients and natural extracts in optimal doses: walnut stem cells, biomimetics peptides, hyaluronic acid, lipoic acid and vegetable oils extremely eudermic for counteract oxidative stress, the degradation of the fibers of collagen and water loss at the skin level, primary cause of dehydration.

BOX 1 PCS | 50ml
€52,00

Pure

Delicate and fresh face serum, ideal for impure, combination and imperfections skin. The high concentration of azelogyline and thiolysin helps inhibit the activity of the sebaceous glands, thus reducing sebum secretion.

► Dermatologically tested

A high proportion of hyaluronic acid in three different molecular weights still ensures proper hydration of the stratum corneum, illuminating the complexion. The matte finish makes it a perfect make-up primer.

BOX 1 PCS | 30ml
€56,00

Lēnis Care

A complex of natural extracts of caper, prickly pear and olive leaves, conveyed in maltodextrin, characterizes this emulsion with an immediate anti-reddening effect. Allantoin, chamomile hydrosol and rice starch contribute to the calming activity, which gives the formulation a velvety and light finish.

► Dermatologically tested

The high concentration of emollient butters and waxes gives sensitive skin effective protection from the micro-traumas of the external environment. Ideal for sensitive skin, subject to redness due to external stress or erythrophobia.

BOX 1 PCS | 50ml
€59,00

Be Safe

AGE CARE CREAM SUN SCREEN 50+

A soft and creamy protective emulsion rich in multiple active ingredients.

- Dermatologically tested
- Water resistant

Dermocosmetic treatment for skin prone to discoloration, photosensitivity induced by cosmetic treatments, photodermatoses, phototherapy, skin aging, sunburns, erythema, allergies and sunspots. Provides highly protective action against UVA - UVB rays with strong moisturizing, nourishing, antioxidant and anti-aging properties. SPF 50+ protection factor.

NEW FORMULA

BOX 1 PCS | 50ml
€26,00

C-Clare Elisir

Skin lighting concentrate with a nourishing texture and a pleasant long lasting fresh effect with immediate absorption.

► Dermatologically tested

The concentrate guarantees a correct hydration without creating an oily effect. Perfect for a daily base, with or without make up. The active extract of orange, rice, caper and Sicilian olive leaf give brightness and compactness to the skin, acting on dyschromia, favouring its reduction.

BOX 1 PCS | 30ml
€42,00

Timeless Pump Lip

Rich gel emulsion with a powerful plumping effect, ideal for preventing and smoothing the signs of aging around the lips.

► Dermatologically tested

It contains a very high concentration of hyaluronic acids obtained from raw materials of vegetable origin whose different molecular weights ensure a function on three levels: on the dermis and epidermis to ensure correct skin hydration, on the stratum corneum to minimize water loss, leaving a pleasant effect of turgidity and freshness.

BOX 1 PCS | 15ml
€36,00

Velvet Step

Fast absorbing nourishing cream, ideal for dry and red feet. Thanks to sweet almond oil and karité butter, it nourishes and hydrates.

► Dermatologically tested

Aloe extract and allantoin give the formula a soothing activity. For perfectly velvety feet.

BOX 1 PCS | 100ml
€28,00

Sublime Your Body

Cream with repairing effect, with antioedema and decongestant action. It has a firming, draining, antioxidant, toning, and effect.

► Dermatologically tested

Helps to maintain the right level of skin elasticity while fighting skin relaxation and promoting cell regeneration. Thanks to its highly lipophilic portion, Sublime Your Body cream exercises a radical scavenger activity that lasts over time.

NEW FORMULA

BOX 1 PCS | 100ml
€29,00

Ozon-E Plus

WITH SPF 15 PROTECTION FACTOR

A moisturizing, antioxidant, dermoprotective and regenerating balm enriched with high concentrations of Vitamin E acetate, Ozonized Olive Oil, Sweet Almond Oil, St. John's Wort Oil, Calendula Oil, and Shea Butter.

- Dermatologically tested

Certified training

Clinita aims to offer the best training opportunities to the professional, in order to meet the various demands in a highly qualified way. A clear and thorough answer, rigorous and serious, but proposed in a simple and exhaustive way in a maze of self-regarding offers with the promise of easy money at the expense of professionalism. Clinita courses offer a complete and innovative preparation for a request of professionalism increasingly sophisticated.

Teachers born to teach

Our teachers are equipped with EQF (European Qualifications Framework) certificates for training, and the certificate issued has legal value and is recognised as course credit in Europe. Each certificate is authenticated by a hologram with a serial number for registration.

Universal

The worldwide network of professionals and masters of tattooing already using the Clinita method and products is a source of continuous exchanging and sharing of experiences and techniques. This allows our company to constantly update the forms of education and training so to provide always the latest proposal in the market.

Guaranteed result

Our promise: make sure that, with the same passion that led us to create the project Clinita, we will transfer to you our techniques and knowledges, so that you will become a safe, effective and prepared professional.

No Global

It is not our interest to propose a standardized training, but instead to recognize the needs and career paths of each, because training is a continuous evolution and we are convinced to be the best possible partner on the road to this wonderful profession that is dermopigmentation.

The best educational kits

The whole material necessary for both the course and commencement of the work activity is offered to you as part of the cost of the course. What is included in the Clinita box:

- Course book-handout
- Laminated colour folder in poster format
- Detailed guide to the use of pigments
- Notebooks and pens for the notes
- Exercise handout
- Tools for work design (make-up pencils, felt-tip pens, rulers etc.)
- Drawing tool
- Needles and colours galore
- Disposable accessories for conducting exercises (gloves, gowns, masks, ink-holder caps, sterile field of work etc.)
- Educational material for exercises: colours, watercolours, synthetic skins (pleather), etc.
- Clinita dermograph on free-of-charge loan for use

Reliability

Stop improvising! Training is something that has to be taken seriously, since the future of the profession is represented by those who devote time and invest resources to become comprehensive professionals with impeccable technical skills.

Strict methods and lots of practice

Appropriating the techniques and maneuvers professionally, managing the total sterility of the working field for your own and your customer safety, knowing colors scientifically, being able to project by mastering the knowledge of the face and morphology concepts are some of the topics that should be treated with rigor in theory but also to put immediately into practice with lots of exercises.

Never alone

Join the Clinita group means you can always count on a suggestion and advice. Becoming part of a network of exchange and sharing with top industry professionals, operated on exclusive “social” groups and platforms; enjoy a tutoring service where constant support and advice are offered with openness and passion.
